

Installation of Roll Bar Mounting Bracket

1. Place the switch panel face down on a smooth flat surface. **Do not remove until completed.**
2. Remove the four screws (two screws on Model 4000) and washers (discard)
3. Place the four nylon washers (two washers on Model 4000) over the exposed holes in the rear panel
4. Install screws in the bracket with metal washer under screw head and insert into the rear panel and tighten
